
Slide Or Die

premier™ slide curtain coating dies - range of capabilities die gap flatness: standard flatness is $2.54\mu\text{m}$ ($0.0001''$), with capability of manufacturing to $0.5\mu\text{m}$ ($0.00002''$) coating weight accuracy: $\pm 1\%$ cross web a **large three slide transfer press - author of quick die ...** - die for maintenance or die changing. the pivoting transfer is mounted to the column of a the pivoting transfer is mounted to the column of a 220-ton (1957 kn) niagara 84-inch (2.134 m) wide straightside press. **glossary of power press terms - cstoosme** - adapter plate: a plate or fabrication installed between the die(s) and the slide, to accommodate the die configuration to the slide face for proper location and fastening. note: when used with a quick die change system, the adapter plate is provided with clamping slots and/or a hole pattern adc: automatic die change. adjustable barrier guard: a guard with provisions for adjustment to ... **slide action - dme company** - slide action hydraulic locking core pull cylinders benefits • withstands high loads • large locking surfaces promote extended service life • pulls sliding cores in injection molds and die cast tools **pelletizing system options types of pelletizing systems ...** - strand -water slide hot die face -air cooled die face -water ring die face -under water drop pelletizing strand -water bath - strengths low cost simple to use easy to clean and changeover strand -water bath - weaknesses very little automation limited pellet size high cutter wear/maintenance sensitive to process variations strand -water slide - strengths higher level of automation ... **volume five press slide suspension designs - aida-global** - drive to the slide and upper die so that work can be completed on the material in the die. the physical size of the suspension point components is very important for carrying this compressive load. figure #2 requirement 2-the system needs to be of sufficient size to accept high reverse loads at the bottom of the press stroke and then lift the slide and upper die on the up-stroke. again, the ... **style 20 style 25 - h&o die supply, inc.** - style 75 - four pin type. multi-slide die sets ball bearing die sets - high speed design for all above styles of friction ball bearing die sets. boss die sets - heavy duty design for friction or ball bearing die sets. serving the die & mold building industries note: *see ball bearing die set information, for b dimension when ordering style bb 20 b. note: *see ball bearing die set information ... **pins and bushings - inch - daytonlamina** - pins & bushings - inch service we deliver and quality you can depend on danly iem is a leading manufacturer of die and mold components supplied globally to the parts forming industry. **strategy for modifying and operating dies at a common shut ...** - die shut height is defined as the height of the die in the shut or closed position. this height may be greater when measured on the shop floor than in the press because the die might not close completely because of die pressure systems. the press shut height for diesetting purposes is the distance from the top of the bolster to the bottom of the ram or slide at bottom dead center, (bdc). bdc ... **flat products - daytonlamina** - 3 lamina, inc. began as a lamination die manufacturer in 1938. during the years from 1938 to the present lamina has evolved into a manufacturer and distributor of die and mold **ramram--master safety blockmaster safety blocks - vit ltd.** - safety blocks are placed between the die punch and holder and must be rated to support the combined static load of the slide and associated components. depending upon the weight to be supported as many as four safety blocks may be required. **slide 1 of 25 - imo** - slide 2 of 25 1. the italian coast guard 2. an epic never-ending exodus 3. search & rescue beyond hamburg convention 4. conclusions immigration by sea an epic never-ending story . slide 3 of 25 the italian coast guard . slide 4 of 25 the italian coast guard. slide 5 of 25 an epic never ending exodus . slide 6 of 25 1900 today their destiny...to die . slide 7 of 25 from 1991 to 31st december ... **hydraulic press lines - schuler group** - die change / hydraulic press lines crossbar robot 4.0. the latest generation of press line automation. significant reduction of die change times. fully automated die change. significant reduction of die change times fully-automated die clamps on the slide automated scrap chute covers connections for die automation on the moving bolsters complete set-up and preparation of dies and tooling ... **flat die extrusion cast film, coating & laminating** - flat die co-extrusion • common process and arrangement for cast film, extrusion coating, and extrusion laminating • differences in materials processed, typically lower mi for cast film • differences in die manifold geometry, typically t-slot for extrusion coating & laminating vs "coathanger" for cast film. common film forming vacuum box air knife flat cast film melt embossed cast ...
